Visit Instructions

You chose a time for your appointment. Remember, you can show up any time within that hour. For example, if you scheduled 9 a.m., you can come to the lab any time between 9-10 a.m. If your provider added a flu test to your COVID-19 test order, it will be done at the same time as your COVID-19 test. Please note that if you show up outside of your scheduled appointment, you may not receive your COVID-19 test.

Due to a rapid increase in testing needs across the state, we are working hard to balance this volume and honor appointments already scheduled by our patients. Wait times may be longer than normal. Thank you for your patience.
